

"Health is the greatest gift." -Gautama Buddha

The updated COVID-19 bivalent booster improves your immune system's ability to fight COVID-19.

Those who have weakened immune systems (i.e., people with cancer, leukemia, kidney disease, and/or older adults) are less likely to get COVID-19 from you if you TOO are vaccinated and boosted.

Do it for yourself and for those you want to keep safe.

Thank you!

GO THE EXTRA MILE: GET BOOSTED!

THE COVID-19 BOOSTER WAS DEVELOPED DUE TO THE DELTA VARIANT.

THE DELTA VARIANT WAS A NEW STRAIN OF COVID-19 THAT WAS QUICKLY SPREADING.

THE ORIGINAL VACCINE'S ABILITY TO PREVENT THE SPREAD OF THIS VARIANT WAS A CONCERN FOR MANY.

THIS IS WHEN THE COVID-19 BOOSTER WAS CREATED- TO ADDRESS THIS CONCERN.

THE COVID-19 BOOSTER DECREASES THE RISK OF INFECTION BY GIVING YOUR IMMUNE SYSTEM A "BOOST" OF PROTECTION..

THIS IS IMPORTANT AND NECESSARY BECAUSE VACCINE PROTECTION FADES OVER TIME.

"DON'T WAIT. STRENGTHEN YOUR HEALTH AND THAT OF YOUR LOVED ONES. SCAN THE QR CODE FOR THE NEAREST SITES OFFERING FREE VACCINES. GET THE COVID-19 BOOSTER TODAY!"

Unsure about the updated Bivalent COVID-19 Booster?

Don't Leave For Tomorrow What You Can Do TODAY

TALK with your Doctor about which is the best booster for you!

For an individualized vaccine plan, your doctor may ask:

Have you ever been infected with COVID-19? How long ago? How many times were you infected?

Did you ever receive the original monovalent vaccine? When? What medical conditions do you have that weaken your immune system?

Only YOUR DOCTOR can tell you which vaccine plan is BEST for YOU.

Don't wait- make your appointment today!

Protect Your Family and Yourself Against COVID-19 Variants

COVID-19 (like many other viruses) mutated and developed many times to create new “variants”. The original monovalent COVID-19 vaccine **does not** protect against these variants.

If you only received a monovalent vaccine, you are not protected from the Omicron subvariants! Your protection against COVID-19 has also mostly declined by now- if it’s been more than 6 months.

The bivalent booster protects people from the initial strain of the virus **and** the Omicron sub variants BA.4/5.

Protect your body from harm by receiving the **updated** bivalent booster.

COVID-19 symptoms can disrupt your work, family life and social life.

Strengthen your health for yourself and for your loved ones.
